Toronto, ON, Canada

PROFILE

3D modeller with over 20 years background in software development and data science. Brings technical rigour, systems-level thinking, and close attention to detail to every stage of the 3D pipeline, from clean topology and geometry decisions to optimizations of the final output. Currently taking on freelance projects.

3D SOFTWARE & TOOLS

3D Modelling & Sculpting: Blender, Nomad Sculpt

Game Development & XR: Unity

2D & Digital Art: Procreate, Krita, Inkscape, GIMP

AI Tools: Claude, Blender MCP, Tencent Hunyuan

TRAINING & CERTIFICATES

University of Toronto

Certificate in Artificial Intelligence	August 2025
Interaction Design & Prototyping for XR	May 2023

SkillShare

Blender Beginner to Pro: Modeling & Texturing	June 2026
Interior 3D Design, Modelling & Rendering in Blender	June 2026
3D Advanced Character Workshop with Nomad Sculpt	May 2026
Blender Essentials - 3D Modelling Training Course	May 2026

PERSONAL PROJECTS

Designed and published interactive 3D environments and character avatars for VRChat, covering the full pipeline from modelling and texturing in Blender to interaction building and deployment in Unity.

PROFESSIONAL BACKGROUND

DATA SCIENCE MANAGER / STAFF PRODUCT DATA SCIENTIST, MOZILLA – 2022-2026

Led analytics for Firefox browser teams, supporting product decisions that impacted millions of users. Partnered cross-functionally with Product, Engineering, and UX to translate complex behavioural data into clear, actionable insights. Created a North Star framework for product metrics, applied machine learning to model an indicator of user lifetime value and designed geo-based experiments to measure marketing ROI.

STAFF DATA SCIENTIST / DATA SCIENCE LEAD, SHOPIFY – 2012-2021

Built foundational analytics infrastructure supporting Shopify's growth from 20K to 800K+ merchants. Led technical architecture for enterprise-scale data warehousing, implementation of full data pipelines, and defined data standards adopted across multiple teams. Progressed from hands-on manager to organization-wide technical leadership.

MARKETING INTELLIGENCE MANAGER, DAFITI – 2010-2012

Designed end-to-end measurement frameworks for a hypergrowth e-commerce platform, from website instrumentation to multi-channel campaign attribution.

SOFTWARE DEVELOPER, BUSCAPÉ – 2010

Development of new features for a comparison shopping website using Java.

SYSTEM ANALYST, UOL – 2009

Development of the billing platform using Java.

LEAD MOBILE PROGRAMMER, DEVWORKS – 2004

Development of games for mobile phones using Java.

SYSTEM ANALYST, ACCENTURE – 2000-2003

Consulting projects for several clients using a variety of technologies.

EDUCATION

Ms. Computer Science – Universidade de São Paulo, 2011

Bs. Computational and Applied Mathematics – Universidade de São Paulo, 2006

Ba. Business Administration – Fundação Getúlio Vargas, 2001
